

ENEMO stands with the people of Ukraine

24 February 2023

One year following the start of Russia's illegal and unprovoked war on Ukraine, the Ukrainian people are still suffering the destructive effects of ongoing military aggression.

The civilian population continues to be targeted by Russian military forces and is subjected to violence, inhumane treatment and human rights violations.

ENEMO is committed to standing with the people of Ukraine, and members of the international community which condemn Russia and call for Russia to end waging its war against Ukraine.

ENEMO supports human rights, democratic institutions, and democratic values as the fundamental building blocks of free societies.

ENEMO stands for democratic progress in Ukraine, in the region, and around the world.
